Surface Mount Techniques recognizes the need for a high quality, yet affordable, manual printer. Using the many years of experience in manufacturing semi-automatic and automatic printers, the **5100 Series** was developed.

Repeatable standard and fine pitch printing is ensured by the exclusive 4 point off-contact adjustment, cast ground tooling plate, lash free X, Y and Theta adjustments and dual locking pin blocks that eliminate movement during printing.

SOLDERPRINT 5100

4 Point Off Contact	Tooling Base	Maximum Frame (OD)	X, Y Adjustment	Platen Rotation	Off Contact	Squeegee Size	Overall Dimension	Weight
YES	21"x22"	30"x23.5"	±.5"	±.5°	1"	Specify to 20"	30"x28"D x7.5"H	115 lbs.
